

## **Hunter Farm Forestry Network**

[www.hffn.org.au](http://www.hffn.org.au)

### **Field Day**

**Dungog**

**Sunday 9 October 2022**

**09:30 for 10:00**

### **Riparian Vegetation Management**

**Discuss the management and establishment of riparian vegetation onsite and with the experts.**

Peter Dixon will join us to talk about riparian management and restoration techniques. Peter has over 30 years' experience in restoration ecology, community engagement, environmental program design and delivery, governance, and monitoring and evaluation. He is the current President of the Australian Association of Bush Regenerators (AABR) and runs an environmental consultancy business.

Discussion topics include:

- Broad focus on the management of riparian zones
- What species are appropriate and inappropriate?
- General principles of erosion control
- General principles of weed control
- Importance of fencing
- Options for sustainable harvesting

### **To obtain details**

**RSVP HFFN Secretary** [Secretary@hffn.org.au](mailto:Secretary@hffn.org.au) Phone: 6547 3552

Note – Directions to the site will be circulated in the week prior to the event but only to those who RSVP.
