

Grass identification and pasture walks - EOI

We are seeking expressions of interest for our popular grass identification and pasture walks to be held in 2023.

Join your neighbours and community in these free workshops being led by local agronomist and grass identification expert, Harry Rose in conjunction with local Landcare networks. Attendees will receive free pasture weeds identification and grass identification resources and be taught how to use these in the field to key out these usually tricky to identify plants!

Lower Hunter:

Mt. Vincent/Cessnock area

Saturday 11 March 2023

Manning-Great Lakes:

Krambach

Thursday 2 March 2023

Buladelah

Friday 3 March 2023

Coopernock

Saturday 4 March 2023
